

**2020 PROSPECTIVE PRODUCT CONTENT LABEL<sup>1</sup>**

MidAmerican’s Renewable Energy Program-Any Technology is a Renewable Energy Certificate (REC) product and does not contain electricity. A REC represents the environmental benefits of 1 megawatt hour (MWh) of renewable energy that can be paired with electricity. For more information, see [www.green-e.org/rec](http://www.green-e.org/rec).

MidAmerican’s Renewable Energy Program- Any Technology matches **X%** of your electricity usage. In 2020, MidAmerican’s Renewable Energy Program- Any Technology will be made up of the following renewable resources (based on best value option).

Green-e® Energy Certified New <sup>2</sup> Renewables in MidAmerican’s Renewable Energy Program-National Any Technology		Generation Location
-Biomass	Up to 100%	National
-Geothermal	Up to 100%	National
-Hydroelectric <sup>3</sup>	Up to 100%	National
-Solar	Up to 100%	National
-Wind	Up to 100%	National
<b>TOTAL</b>	<b>100%</b>	<b>National</b>

1. These figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before August 1 of next year in the form of a Historical Product Content Label the actual resource mix of the RECs you purchased.

2. New Renewables come from generation facilities that first began commercial operation within the past 15 years. This product includes generation from facilities that were approved for extended use under a strict set of criteria by Green-e® Energy and from facilities that qualify as repowered.

3. Eligible hydroelectric facilities are defined in the Green-e® Energy National Standard (<http://www.green-e.org/standard>) and include facilities certified by the Low Impact Hydropower Institute (LIHI) ([www.lowimpacthydro.org](http://www.lowimpacthydro.org)) or EcoLogo ([www.ecologo.org](http://www.ecologo.org)); and facilities comprised of a turbine in a pipeline or a turbine in an irrigation canal.

For comparison, the current average mix of resources supplying the U.S. (2018) includes: Coal (27.5%), Nuclear (19.4%), Oil (0.6%), Natural Gas (35.2%), Hydroelectric (7.0%), Wind (6.5%), Biomass (1.4%), Solar (1.5%), Geothermal (0.4%) and Other (<1%). This resource mix was prepared in accordance with the U.S. Energy Information Administration, [www.eia.gov](http://www.eia.gov).
